**Rui P. Martins** (*Fellow'08; Life Fellow'24*), received the Ph.D. in Electrical Engineering and Computers from the Department of Electrical and Computer Engineering, Instituto Superior Técnico, University of Lisbon, Portugal, in 1992, and has been with that Department since October 1980, where he is a Full Professor. From 1992, he has been on leave from University of Lisbon and with the Department of Electrical and Computer Engineering, Faculty of Science and Technology, University of Macau, Macao, China, where he is a Chair-Professor since Aug. 2013. His research interests are on analog and mixed-signal VLSI design and has authored or co-authored 1,050+ publications, including 10 books, 13 book chapters, 70+ Patents, 430+ papers in scientific journals and 460+ in conference proceedings, as well as other 80 academic works. He was the Founding Director of the State Key Laboratory of Analog and Mixed-Signal VLSI, between 2011 and 2022, and is currently the Director of the Institute of Microelectronics, both at the University of Macau, Macao, China.

Prof. Rui Martins is an *IEEE Life Fellow*, received an Author Recognition Award at the 70 years of ISSCC, in 2023, as a Top Contributor with more than 50 papers, 3 Medals from Macao Government in 1999, 2001 and 2021, and a National Award for Electrical Engineering by *"Ordem dos Engenheiros"* in Portugal in 2024. Since July 2010 he is an Academician with the Lisbon Academy of Sciences, Portugal.
